

The background of the slide is a close-up photograph of a wooden surface, showing a mix of light and dark wood grain patterns. Overlaid on this background are two large, solid-colored rectangles: a white one on the left and a black one on the right. The text 'weld & co' is centered within the white rectangle, and 'Highlights 2023' is centered within the black rectangle.

weld & co

Highlights  
2023

## → **Brand**

*weld & co stands for modern furniture and home accessories from East Westphalia, a region of Germany with a rich furniture-making tradition. Each design is based on a unique idea that recognizes the importance of both form and function. With its clean lines, the design language focuses on the essentials. The materials are selected not only for their practicality, but because they complement the design. weld & co combines artisan craftsmanship with industrial production to manufacture our products in the region.*

## → **Sustainability**

Sustainability is a continuous process at weld & co, always challenging, always complex, and also always rewarding. We want to create products and spaces that stimulate the positive power and impact of the individual. We focus on timeless design, so the furniture and home accessories that we design have the longest possible "life expectancy" as products. In our choice of materials, we remain consistent committed to resource conservation.

## → **How we work**

The weld & co portfolio includes furniture, home accessories, and customized room concepts. We focus on author design. In making our products we rely on resources from our region East Westphalia, which has a deeply rooted furniture-making tradition. Some steps of the manufacturing process are performed in our own workshop, which is where we can also do customized production upon request.

→ Oak 01 Side Table

The round side tables perfectly combine functional materials in a timeless design. The tabletop of solid, oiled wood lends a warm and natural note to any room, while the frame of tubular steel is both attractive and durable. Our special production technique gives the tabletop its elegant finish, which is underscored by the flat, distinctively chamfered edge that harmonizes beautifully with the table frame.

→ Grid 02 / Grid 01 / Solid 2 Side Table

→ Solid 01 / Solid 03 Side Table

→ Solid 01 Side Table

The Solid & Grid collection includes five graceful side tables – three round and two rectangular, featuring solid or graphically structured ("grid") tabletops. Standing alone next to a couch or a bed, or grouped in a nested arrangement, these side tables blend harmoniously into every part of the home.

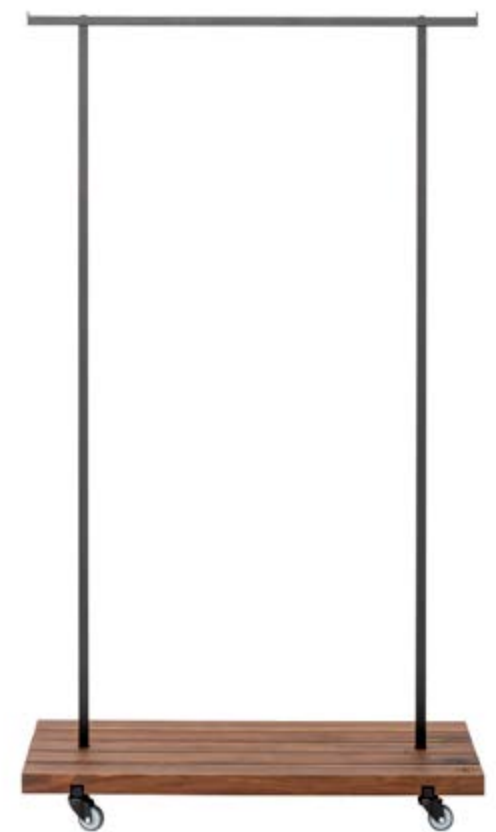

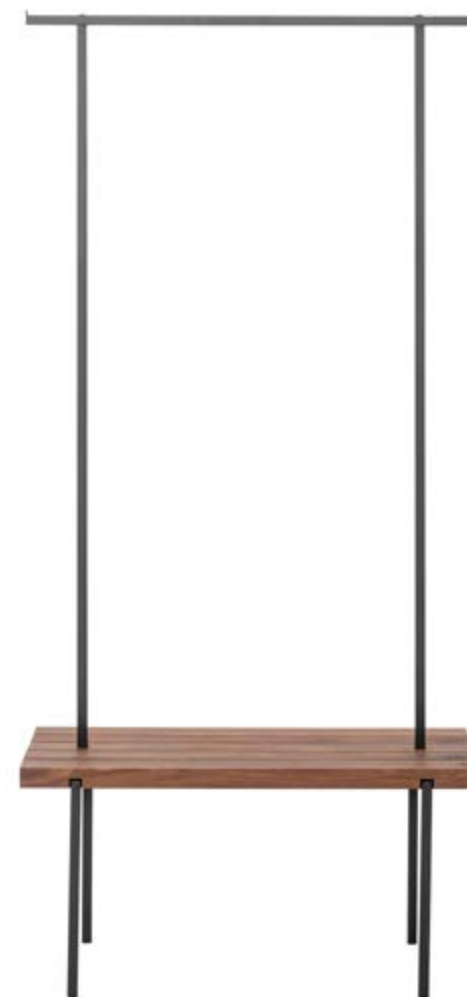

→ Walnut 01 Coat Rack

Benches, coat racks and clothes racks from weld & co makes a perfect first impression in your hall or entryway. The rich qualities of oak, walnut or reclaimed wood are shown to their full advantage in the solid wood seat or base. The understated look of this pieces are completed by the slender legs and the clean lines of the frame, while the combination of wood and metal provides a high degree of functionality.

→ Walnut 01 Clothes Rack

→ Walnut 01 Bench / Walnut 01 Coat Rack / Walnut 01 Clothes Rack

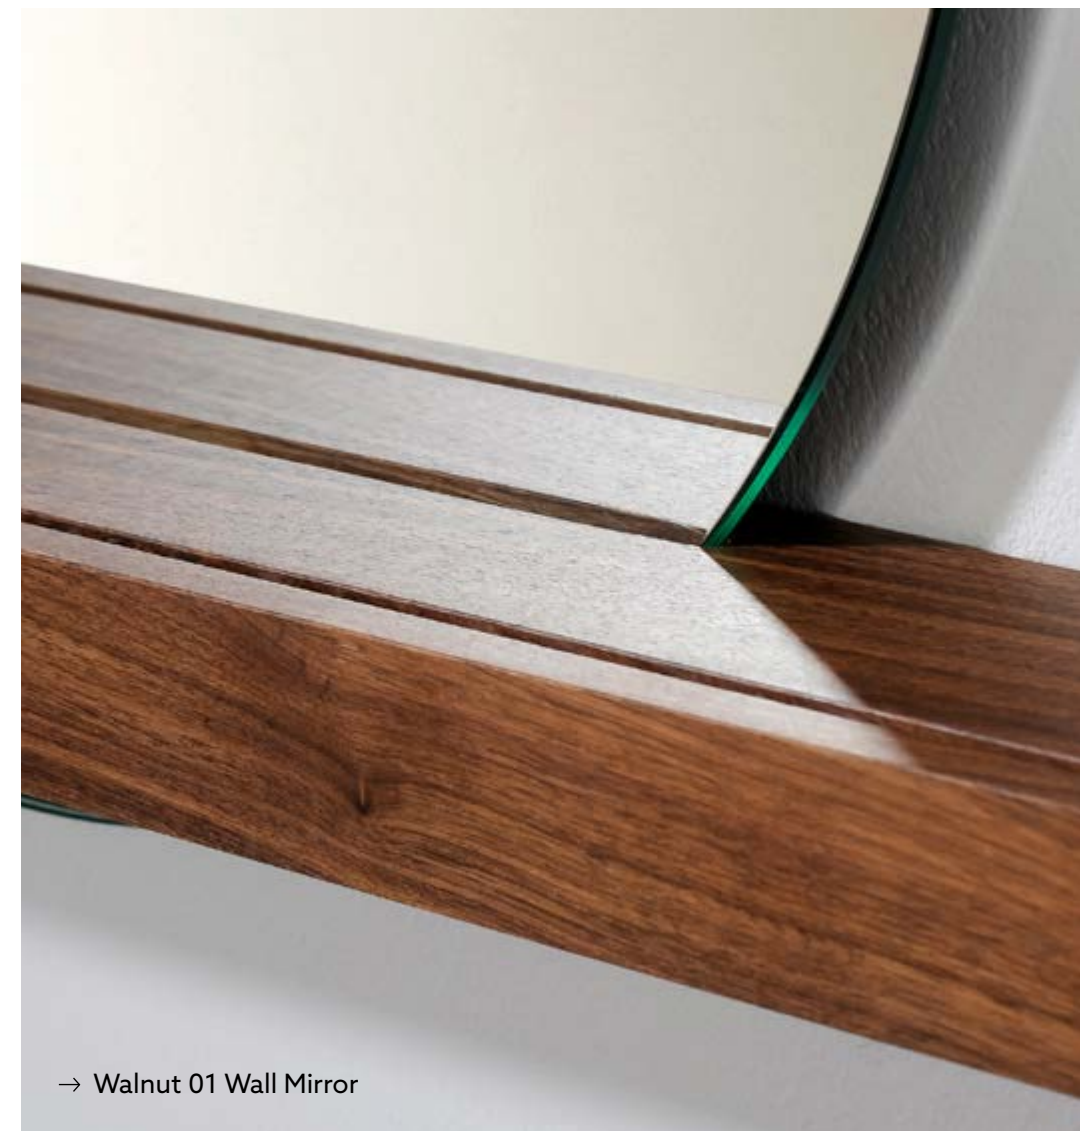

→ Oak 01 Wall Mirror

→ Oak 01 Wall Mirror

The wall mirror combines a slim ledge of solid, oiled oak, walnut or silver fir with a round mirror that almost appears to float. This effect is made possible by a slot in the shelf – the mirror and the opening are sized so the mirror is automatically held in place once inserted, resulting in a captivating mixture of form and function.

→ Walnut 01 Wall Mirror

→ Oak 02 Wall Shelf

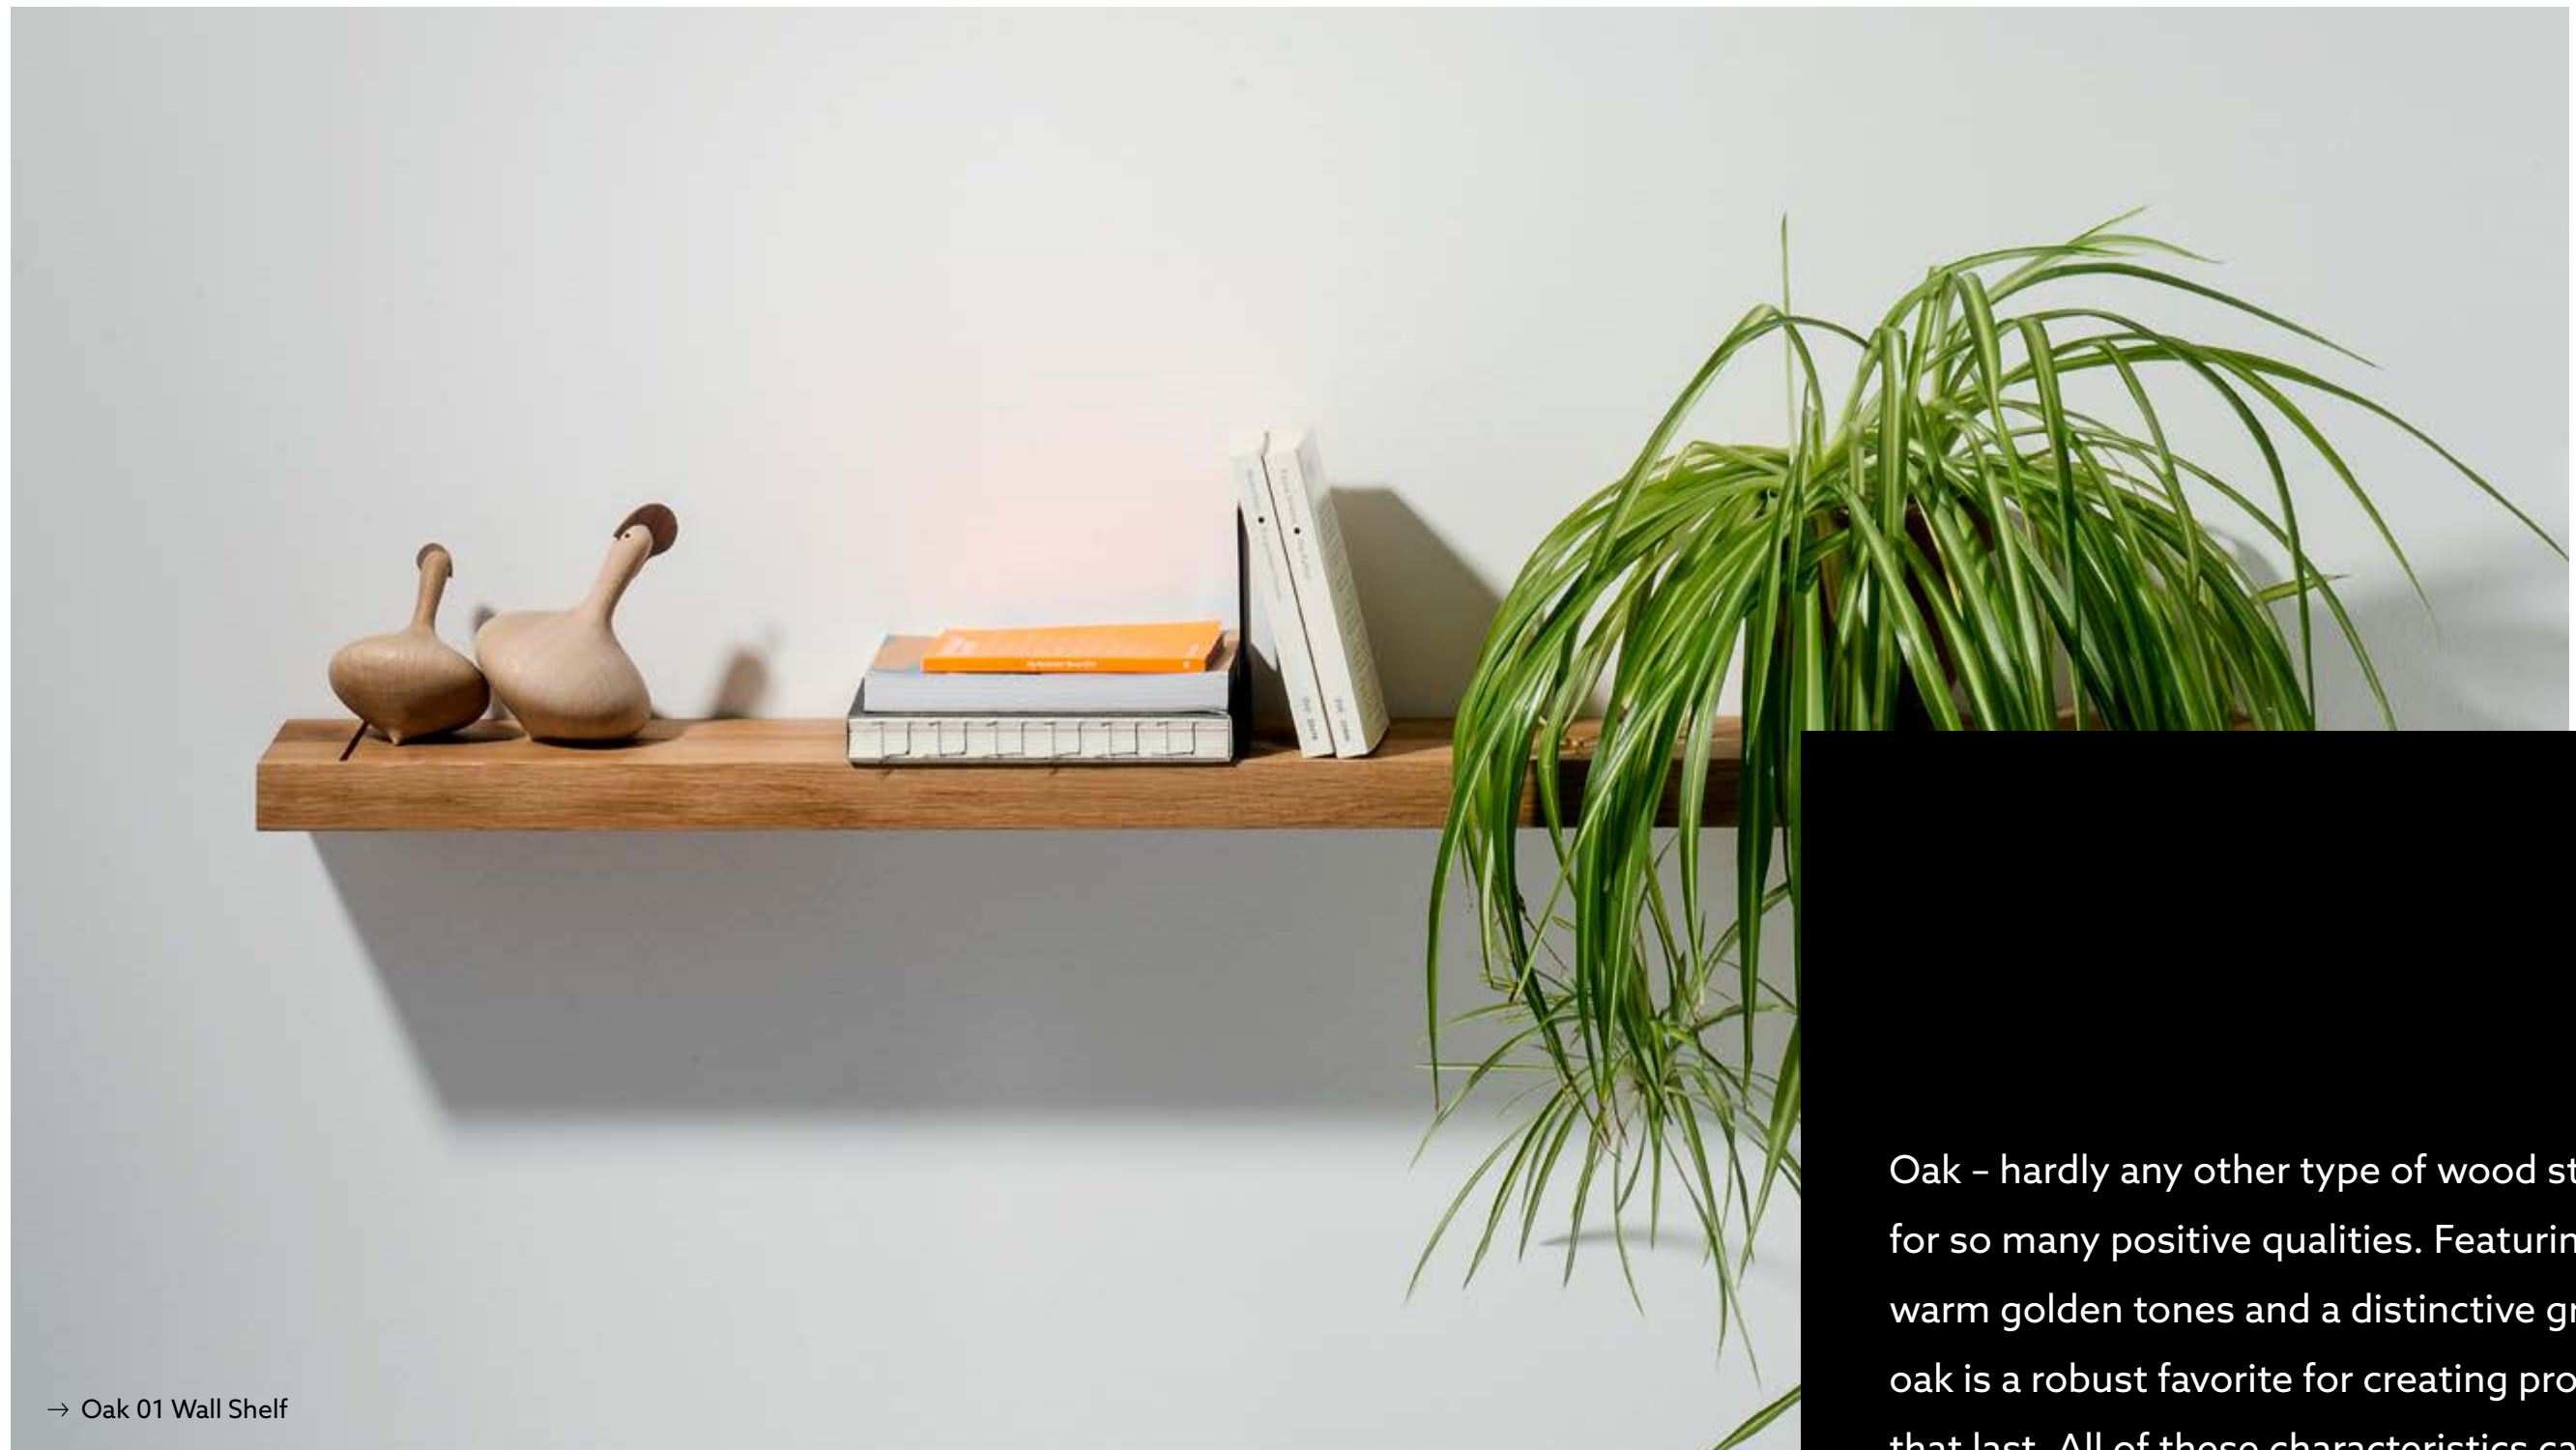

The visible edges of the wall shelf have been carefully finished with an eye to both elegance and strength. The rounded corners give it a harmonious appearance.

The 02 Wall Shelf is available three different kinds of wood and in two sizes. Its minimalist design appears to full advantage when hung individually, but can also be accentuated by combining several shelves.

→ Oak 01 Wall Shelf

Oak – hardly any other type of wood stands for so many positive qualities. Featuring warm golden tones and a distinctive grain, oak is a robust favorite for creating products that last. All of these characteristics can be found in the furniture and home accessories of the weld & co Oak collection.

The wall shelves feature a lengthwise groove and crosswise slots cut into its surface. The groove can be used to display photos, postcards, and prints, while the slots can hold the bookends that come with the shelf. Oak 01 Wall Shelf, Walnut 01 Wall Shelf and Reclaimed Wood 01 Wall Shelf are available in three sizes.

→ Walnut 01 Wall Shelf

→ Oak 01 Wall Shelf

→ Walnut 02 Picture Ledge

→ Walnut 02 Picture Ledge

Picture ledges make it easy to put together your own personal gallery of photographs, artwork, and prints. The picture ledge can also be used as a narrow wall shelf in the living room, kitchen, or any other room of your home – a perfect place to keep small mementos.

In the office, picture ledges can be used as slim shelves and presentation ledges.

The picture ledges from weld & co are available in oak, walnut, silver fir and reclaimed wood and there are three sizes each to choose from.

→ Walnut 02 Picture Ledge with lengthwise groove

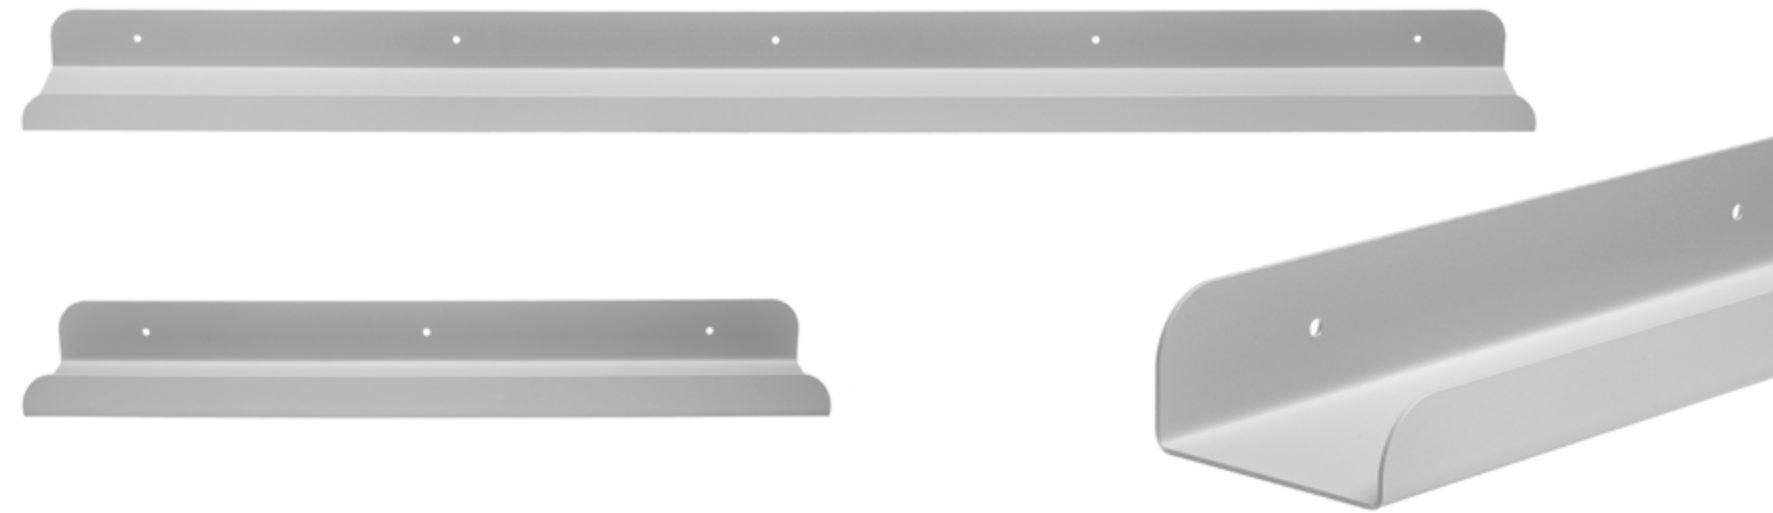

→ Solid 03 Wall Shelf Anthracite

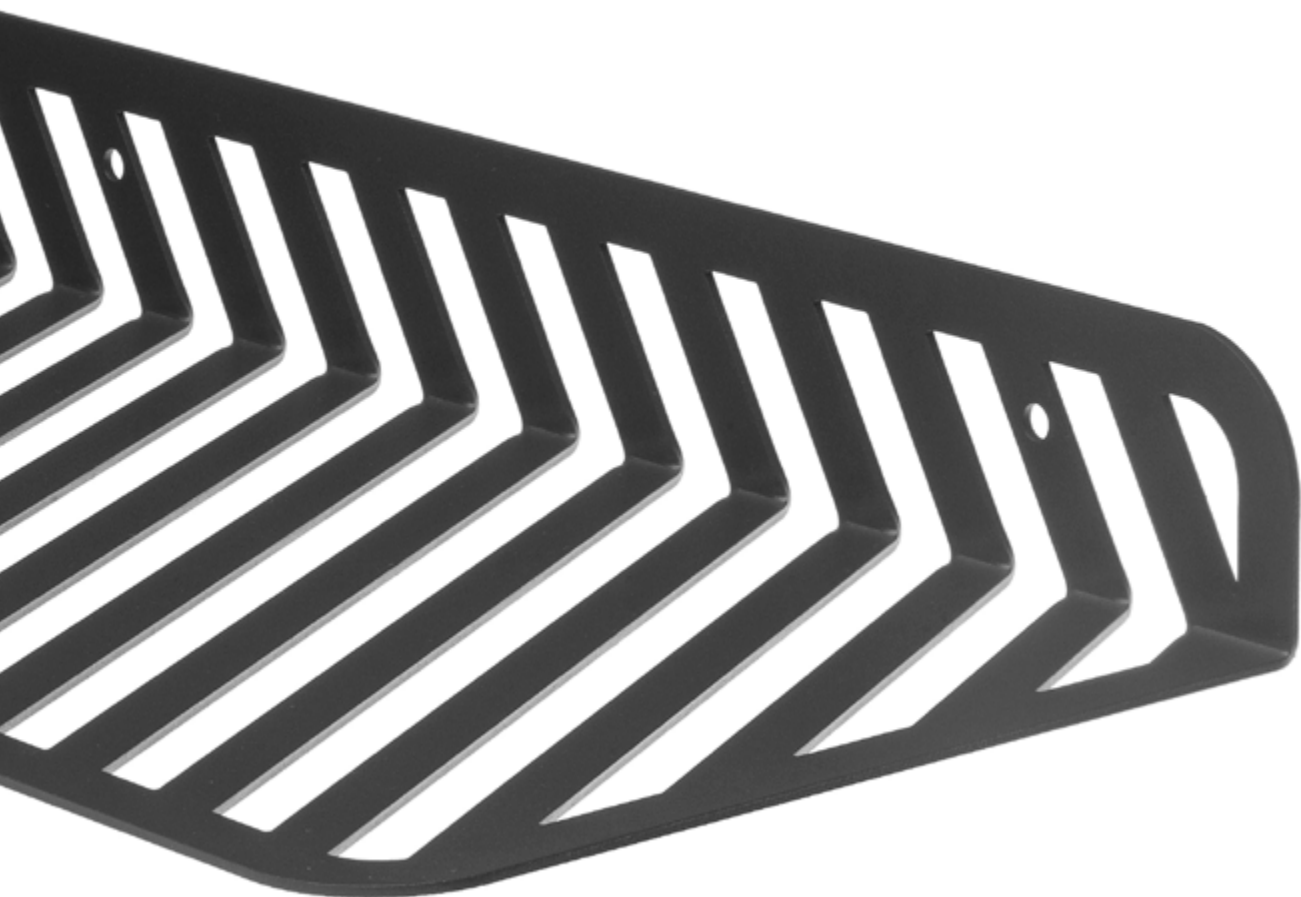

The ,Solid & Grid' collection offers a choice of eight different metal wall shelves: ,Solid' shelves made of flat steel sheet and ,Grid' variants with characteristic diagonal laser cutouts.

→ Solid 03 Wall Shelf Light gray

→ Solid 01 Wall Shelf White / Light gray / Anthracite / Pastel green

→ Grid 01 Wall Shelf Light gray

→ Solid 06 Wall Shelf Anthracite

Favorite collector's items and artworks can be showcased on the shelves in the living room, everyday necessities can be organized in the entryway, and whiteboard markers, magnets, and beverages can be kept close at hand in small meeting rooms. And in the bathroom and kitchen, the wall shelves offer countless practical storage options.

→ Reclaimed Wood 01 Picture Ledge

→ Reclaimed Wood 02 Picture Ledge

→ Reclaimed Wood 01 Clothes Rack

The weld & co Reclaimed Wood collection aims to preserve old materials by using them to make something new. Naturally aged wood is used to create furniture and home accessories that also feature elegant components made of powder-coated steel. These two elements unite to produce an attractive aesthetic that makes a clear statement. Natural materials weather and age with time, resulting in a completely new look and feel. When combined with robust new materials, they create furniture which is truly timeless.

→ Reclaimed Wood 01 Wall Shelf

→ Solid 01 Bowl

It is the small beautiful things that emphasize the personal style. Deco coordinated with the look of a room completes the atmosphere. Living accessories from weld & co are bookends, key holders, and a bowl.

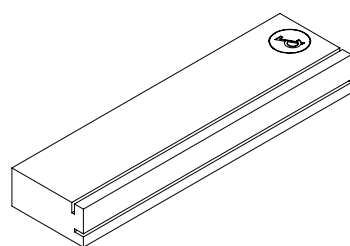

→ Oak 01 Key Holder

→ Solid and Grid Bookends

#### Wooden 01 Key Holder
